***FIGHT FIRE WITH FACTS***

# Smoke Alarms

More than 4,000 Americans die each year in fires and approximately 20,000 are injured. Many of them might be alive today if only they had the information they needed to avoid a disaster. The U.S. Fire Administration offers the following life-saving tips that could make a big difference for you and your community.

**Following these simple fire safety tips can increase your survival rate dramatically.**

## Smoke Alarms Life-Saving Tips

- ☑ Place a smoke alarm on every level of your home and outside bedrooms. If you keep your bedroom doors closed, place a smoke alarm in each bedroom.
- ☑ Check smoke alarms monthly by pushing the test button. If you cannot reach the button easily, use a broom handle.
- ☑ Change the batteries in your alarms at least once a year – perhaps when you change your clocks for Daylight Savings Time.
- ☑ Teach children what the smoke alarm sounds like and what to do – leave the building immediately by crawling low under the smoke – when they hear it sound.
- ☑ If cooking smoke sets off the alarm, do not disable it. Turn on the range fan, open a window, or wave a towel near the alarm.
- ☑ Do not remove the batteries to put in other appliances such as personal stereos or games.
- ☑ Smoke alarms wear out over time. Replace yours if it is 10 years old or more.
- ☑ Keep smoke alarms clean. Dust and debris can interfere with their operation. Vacuum over and around your smoke alarm regularly.
- ☑ Consider installing a 10-year lithium battery-powered smoke alarm, which is sealed so it cannot be tampered with or opened.
- ☑ Hard-wired smoke alarms with battery back-ups need to be tested monthly and batteries replaced yearly.

### Did you know?

- ▶ Eighty-two percent of all fire deaths occur in the home.
- ▶ Having a working smoke alarm reduces one's chances of dying in a fire by nearly half.
- ▶ Nearly one-third of the residential fires and two-fifths of residential fire fatalities occur in homes with no smoke alarms.
- ▶ For more information on how you can help prevent fires and fire deaths, please contact your local fire department on a nonemergency number or the U.S. Fire Administration at (800) 238-3358 or visit [www.usfa.fema.gov](http://www.usfa.fema.gov) or [www.firesafety.gov](http://www.firesafety.gov).
